

Greetings from the 2<sup>nd</sup> quarter 2018!

You are, We are, the 1<sup>st</sup> responder! Critical incidents are on the rise, not slowing down. Be aware, take action, share your knowledge and training. Acquire more in-depth training in the area of recognizing atypical behaviors in our youth our workmates and our communities. Be proactive. Practice situational awareness.

Please get involved with your communities, schools and houses of worship; get involved in this chapter and help us for the good!

April 5<sup>th</sup> the chapter won the weather battle and LEAN was a huge success. Michael Banach, LEAN committee chair stewarded the committee through the snow and delivered, and how. The stories of our local LEOs heroics and crime fighting should be spotlighted everyday not just sometimes. Joseph Clancy, CSO, Comcast, spoke eloquently of his federal LEO service and his appreciation for the officers honored.

A double header for April saw us high above the city, enveloped in the clouds for breakfast at the Pyramid Club. While foggy outside our windows, shared knowledge from many past chapter chairs shined bright as our Vice Chair, John Philippi, moderated a lively discussion around how ASIS affected the groups careers and successes.

The triple play for April saw a small group get together to discuss and toast new technology at the ISC West security conference in sunny Las Vegas.

Enjoy the Memorial of May while we contemplate the sacrifice & service of our military, and the joy of living free!

Continuing our educational theme for the year, June 20<sup>th</sup>, join the chapter as Vice Chair, John Philippi, & SAP host a resume writing & interviewing within the security industry best practices session. New to the industry or a seasoned professional, you will find value in this meeting. See the meeting notice and RSVP early!

Look for a possible, Liberty Bell BBQ sometime in July. Pictures at the bell along with charitable lunch for LEOS, Military, Hungry.

August may bring a casual golf get together, I'm exploring the possibilities.

September we will wing our way to GSX in fabulous Las Vegas for a chapter cocktail hour.

Fall will bring another great event when Mark Wolfheimer host our PSAN event and Bill Lutz hosts us for our favorite Holiday Bash.

If you have not updated your profile yet, you are not getting the full online benefit of your ASIS membership. Education, scholarship, networking, certification.

Yours in Security,

Samuel F. Vinicur CPP  
GPC Chair
